QUARTETT OF HUNTERS STALK THE DEER

SAW TEN TIMID ONES BESIDES SOME WILD BOAR AND GOATS AND MYRIAD BIRDS.

T. S. Hall, C. A. Hartwell, Carl and Edmund Hedemann returned Saturday from a delightful hunting trip of ten days in the mountains on Molokai. Their primary object was deer-stalking and the quartet was rewarded by sighting ten of these timld fellows. Two were brought down by shots by Hart-well and Hall. Mr. Hall reports that the Molokai deer are growing scarce and have become very wary and timid. The best deer hunting was found at an elevation of 3,000 feet near Kaumoki. The hunting party was housed at the Molokai ranch house and were allowed to hunt deer only by permission of the ranch authorities.

The party returned very enthusiastic over the Molokai country, especially the valley of Waikolo, along which they traveled up to the hunting ground. Flour they traveled up to the nuntuag at the strain of the in natural scenery and landscapes mos wonderful.

Besides deer they found wild goats It and wild hogs most pientiful, effering the best of sport. Pheasant and quail were as thick as leaves in autumn, but it was the close season. Nearer the cean there were great flocks of doves. curiew and quail.

Farther up in the mountain they came across great droves of wild pig-cons and discovered the guich where these birds abide in a great rookery. They bagged all the pigeons they could handle.

During their hunt they had the finat weather imaginable. The mercury at nights went down to near firty.

AN EXAMPLE.

A man came into our store a while ago who had worn made-to-order shoes for twenty years. He came in to buy polish, not shoes, but noticing a Hanan shoe that pleased his eye tried it on and was so delighted with the feel of it on his foot that he bought it. He is now wearing nothing but our Hanan shoes and tells us that he gets more comfort than ever before.
